WAITING FOR LOVE Shelly Morrison loves her life as a single working woman, but has no one to share it with. She left her heart back in high school with the captain of the football team.

All should pay our fair share of taxes is a purely subjective term. American workers are allocating more of their income to gasoline and food (as a result of higher gas prices and inflation) than ever. Meanwhile, the people who really don understand how an economy works are saying we need to take more money out of the employers pockets, which ultimately becomes less money for their employees and creates less incentive to hire (although regulations and minimum wage laws are more of a disincentive).
